

MUJTABA AZHAR

Full Stack Web Developer

Multan, Pakistan | mujtabaazhar110@gmail.com | +92 301 7147110
[linkedin.com/in/mujtabaazhar](https://www.linkedin.com/in/mujtabaazhar) | [Portfolio](#)

PROFESSIONAL SUMMARY

Full Stack Web Developer with 3+ years of combined internship, freelance, and full-time experience building dynamic, scalable web applications using PHP (Laravel), Node.js, React, MySQL, and MongoDB. Strong command of HTML, CSS, JavaScript, and RESTful API design and integration. Experienced in on-site, cross-functional collaboration with international teams and excellent English communication skills. Proven track record of delivering end-to-end SaaS products, optimizing databases for large-scale applications, and writing clean, maintainable code with Git/GitHub workflows.

TECHNICAL SKILLS

- **Front-End:** HTML5, CSS3, JavaScript (ES6+), React, AJAX, responsive web design
- **Server-Side:** PHP (Laravel), Node.js, Python
- **Databases:** MySQL, MongoDB — schema design, query optimization for large-scale applications
- **APIs:** RESTful API development & third-party integration, JSON, Authentication (JWT, OTP), payment gateways
- **Tools & Workflow:** Git, GitHub, SaaS architecture, real-time notifications, microservices
- **Communication:** Excellent written and spoken English; experienced working on-site with international teams in Saudi Arabia

WORK EXPERIENCE

Full Stack Web Developer

Oct 2024 – Oct 2025

Speed Track — Makkah, Saudi Arabia

- Built and maintained SaaS membership and loyalty systems on a multi-tenant architecture using PHP (Laravel) and Node.js, ensuring scalability and performance.
- Designed and developed RESTful APIs and integrated real-time notifications across web applications.
- Collaborated on-site with cross-functional, international teams to design and ship AI-enhanced customer engagement features.
- Optimized MySQL database queries and backend logic, significantly improving response times and user experience.
- Integrated Generative AI features to personalize services for end-users.

Freelance Web Developer (Part-time, alongside university)

Sep 2022 – June 2024

Self-employed — Multan, Pakistan

- Delivered paid, end-to-end web projects for university faculty, peers, and small local clients, handling requirements gathering, development, and deployment independently.
- Built full-stack applications in PHP (Laravel) and Node.js, including subscription management, OTP verification, and secure payment gateway integrations.
- Developed RESTful APIs and microservices integrated with React/JavaScript front-ends.
- Designed and optimized MySQL and MongoDB schemas for data-heavy applications.
- Managed all code using Git and GitHub with structured branching workflows.

Web Development Intern

June 2022 – Aug 2022

Quantomex — Multan, Pakistan

- Contributed to production SaaS modules in PHP and Node.js under senior developer mentorship.
- Assisted in building RESTful API endpoints and integrating them with front-end interfaces.
- Wrote and optimized MySQL queries for existing high-traffic applications.
- Participated in code reviews and collaborative Git/GitHub workflows.

EDUCATION

Bachelor of Computer Science

Air University, Pakistan — CGPA: 3.42 / 4.00

ADDITIONAL INFORMATION

- Available for remote work from Pakistan; comfortable with evening shift hours (5:00 PM – 1:00 AM PKT).
